

Full-featured point-of-sale (POS) software designed for any restaurant

Let us help take the guesswork out of running your restaurant by streamlining front and back of house operations. Whether you're running a full-service restaurant, a casual lunch spot, or a trendy cafe, Clover® for Restaurants has you covered.

Table Service Restaurant

The complete POS experience for full-service restaurants. Complete with customizable floor plans, table and bar tab management and payment pre-authorization.

- The ultimate payments and business management solution for full-service restaurants
- Create table layouts, manage multiple guests and simplify bar tab transfers
- Take, fire and modify orders tableside (with Clover Flex)
- Track guest orders, print individual bills, close out partial bills, split checks with ease and more

Counter Service Restaurant

The all-in-one payments, business management and customer engagement plan. Purpose-built for fast casual, quick serve and counter service restaurants.

- Full-featured business management and payment acceptance software
- Fire orders to the kitchen, build complex menus and access reporting anywhere
- Integrate with kitchen displays, printers and other peripherals
- Centralize daily sales, inventory and cash flows
- Run a variety of loyalty programs to increase retention
- Connect to bookkeeping software

Tools to energize your restaurant

Turn your Clover into a well-oiled multitasking machine so you that you can do more for your business than you imagined. No matter the industry these apps will help you tackle the trickiest tasks associated with running your business. Visit clover.com/appmarket/ to see all the available Canadian apps.

Order Kiosk App

Self Order Menu with Kiosk: Turn your Clover into a Kiosk. Your customers enter their own orders and make their own payment to speed up your line and drastically reduce wait times.

Dash

Create an online ordering website, integrate delivery with UberEats, Doordash, Postmates, and Grubhub and add Gift cards and Loyalty Programs, Promotions and Coupons.

Seat On Reservations

Restaurant Arrival and Table Management System: Online and IVR phone reservations, Walk-in and Wait List, Customer Data and Feedback. Reports for Occupancy Rate, Employee Performance, Customer Spending Habits

Order Display

Efficiently displays orders in real-time anywhere using a web browser. You can safely eliminate the need for paper receipts while increasing your kitchen or prep area's productivity.

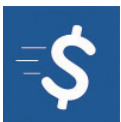

Homebase Schedule

Prevent early clock-ins, manage labor costs and track breaks and overtime. Get exact time cards, copy schedules week over week, manage shift trades and covers and includes payroll exports and integrations.

Quickbooks by CommerceSync

Sync Clover Sales to Quickbooks using Commerce Sync and automatically keep your sales information updated each day. No more manual data entry.

Invoice ASAP

Easy Invoicing and payments for any business. Great for Field Service or any business that uses invoices.

For more information, please visit clover.com/ca.

*Kitchen displays are only supported through third party apps available in the Canadian Clover App Market at clover.com/appmarket.
